

P288: The versatile aluminium glazing bar system

- Ideal for refurbishment or new build projects
- Spans 4000mm at 1250mm centres with 25mm multiwall polycarbonate
- Spans 2600mm at 600mm centres with 24mm double glazed glass units (6mm glass, 12 mm gap, 6mm glass)
- Ingenious gasket carrier slides into capping bar to enable 6mm glass to be used
- Available in brown, white and mill finish (that can be powder coated to a selection of popular RAL colours with a matt finish)
- Full range of complementary fixing accessories

The P288 is just one of a wide range of Twinfix glazing bar and roof light systems. Twinfix products have been used in the European marketplace for over 20 years, so you can install them with full confidence.

See our website for full product details, including glazed canopies and walkways, smoking shelters, domes and pyramids plus rainscreen cladding fixing systems.
