

## SMOKING SHELTERS for Pubs, Clubs and Hotels

The new smokefree law applies to virtually all 'enclosed' and 'substantially enclosed' public places and workplaces. This includes both permanent structures and temporary ones such as tents and marquees. This also means that indoor smoking rooms in these areas will no longer be allowed.

Whilst there is no official requirement for outdoor smoking shelters to be provided, you may feel this to be in the best interests of your smoking customers.

Twinfix offer you a choice of either a lean-to wall fixed or a free standing model. These are available with a variety of different roof shapes; mono pitched, duo pitched or curved to suit your requirements.

Where you need a complete design service, including structural calculations or design drawings for Planning purposes, we can provide this. You can be confident that a Twinfix shelter will be built to a high, and safe, specification.

You can select a tint of glazing and framework colour that will best enhance your premises.

*This free-standing shelter has clear overhead multiwall glazing and a black powder coated frame*

- ◆ A choice of sizes
- ◆ Full service, from assessment to installation
- ◆ Low maintenance framework in polyester powder coated aluminium
- ◆ Optional vertical glazing in clear polycarbonate
- ◆ Pitched or curved roof design
- ◆ Virtually unbreakable multiwall polycarbonate roof glazing
- ◆ Available with white or black frame as standard – with RAL or BS colours to special order
- ◆ Ideal for all premises

Pitched roofs on all models are glazed with tough 16mm multiwall polycarbonate in a choice of clear, opal or bronze tint.

The curved roof on the free standing shelter is glazed with 10mm multiwall polycarbonate, in the same range of tints.

*This shelter overlooks the bowling green and will also provide spectators with protection from bad weather*

Black framed lean-to smoking shelters, both fitted with clear multiwall polycarbonate glazing

Lean-to smoking shelter glazed with clear multiwall polycarbonate fitted into a white powder coated frame

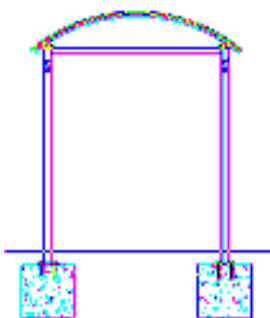

### Wall Fixed Shelters

Should you be interested in a lean-to wall fixed shelter we will need to establish the suitability of the fabric of your building. We can do this as part of our site assessment.

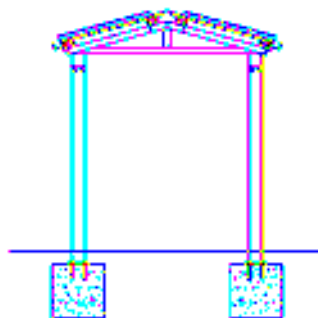

### Specification

- ◆ Maintenance-free powder coated aluminium structure in white or black finish as standard
- ◆ Virtually unbreakable multiwall polycarbonate roof glazing in clear, opal or bronze tint
- ◆ Optional vertical glazing panels in 6mm clear polycarbonate

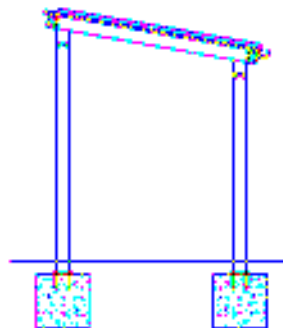

Free standing with curved roof

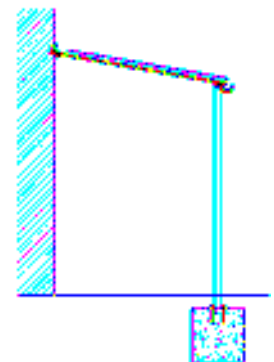

Free standing with duo-pitched roof

Free standing with mono-pitched roof

Wall fixed with mono-pitched roof

We will be happy to visit your premises to discuss your needs, assess your site and prepare a quotation. We can then arrange to fit your smoking shelter using our team of experienced installers. This usually takes only a few days, with very little disruption to pub, club or hotel life.

Please contact us for prices.
