

Glazed Walkways & Corridors

Aluminium framed, glazed with multiwall or solid polycarbonate

- *The curved roof on this walkway was angled towards the prevailing wind in order to provide as much protection from the weather as possible.*

- *A walkway glazed with a multiwall polycarbonate pitched roof joins several school buildings on this site.*
- *The main entrance to the school stands out with its duo-pitched canopy.*

- *Barrel vaulted walkways, above and left, providing cover between school buildings.*

- *A barrel vaulted walkway fitted with a multiwall polycarbonate roof.*

- *This colourful mono-pitched walkway provides pupils with a covered area in which to work and play.*

- *As the buildings on this site were originally built on different levels a series of mono-pitched walkways were designed when the school wanted to provide cover for staff and pupils moving between their buildings.*

- *Bronze multiwall roofing combines with clear solid polycarbonate vertical glazing to create a spacious fully enclosed walkway.*
