

# Twinfix Cantilevered Horizontal Solar Shading Blade System

Generated on 11.12.2019

## Detailed description

The solar shading structure comprises of a light weight, rust resistant aluminium frame that can be powder coated to any standard RAL colour and aluminium ellipsoid blades (100mm & 200mm).

### Approvals:

UKCA marked to EN 1090-1 - Execution of Steel & Aluminium Structures

## Product guidance - As Standard

### Material:

Extruded aluminium profiles and structure to BS 1474.

### Finish:

Polyester powder coating to BS 6496.

### Primary fixings:

Stainless steel self-tapping screws and stainless steel bolts/ nuts as recommended by Twinfix.

### Spanning information:

Maximum projection is 2000mm. Generally the blade length should be no less 10% and the run length between rafter supports, however this is subject to site specific calculations.
