

GW Polycarbonate for Station & Depot Roofglazing

GW Polycarbonate is a 6mm solid polycarbonate sheet from Twinfix with a dimpled surface that mimics Georgian wired glass.

Safe in use – All the benefits of polycarbonate, but looks just like Georgian wired glass

Non-Fragile Roofing – Glazed into our Multi-Link-Panel NF this conforms to the HSE test ACR[M]001:2014 for non-fragile roofing assemblies

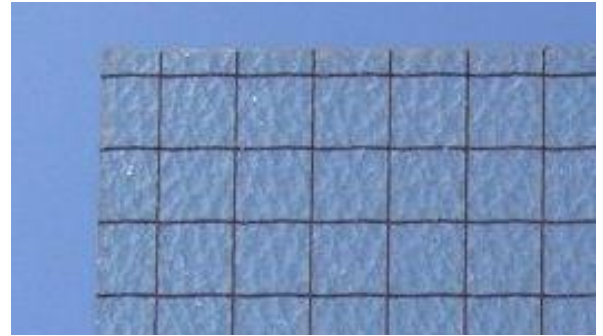

Fast installation – the Multi-Link-Panel NF has been used for many quick station and depot refurbishments

Heritage – Replaces failed Georgian wired glass on Heritage sites

Long lasting – Low maintenance, durable glazing that won't crack or craze due to building or engine movement

Light weight – Weighs only 7.2Kg/m² compared with 6mm glass at 15.2Kg/m².

'Green' product – Polycarbonate glazing may be recycled at the end of its long life span

GW Polycarbonate with a dimpled surface

The quick to fix Multi-Link-Panel installation method

Light weight, easy to handle roof glazing. Let the light shine through!
