

# TWINFIX®

## Data Sheet

# Georgian Wired Polycarbonate

GW Polycarbonate is a 6mm solid polycarbonate sheet from Twinfix with a dimpled surface that mimics the appearance of Georgian wired glass.

### Safe in use

Will not break during installation like glass can. The edges are also not as sharp as glass.

### Long lasting

Low maintenance, durable glazing that won't crack or craze due to building or engine movement.

### Light weight

Weighs only 7.2Kg/m<sup>2</sup> compared with 6mm glass at 15.2Kg/m<sup>2</sup>. Less than half the weight.

### Rapid Installation

Due to the weight and durability of this product, moving and installation time of the glazing can be reduced significantly compared to glass.

### 'Green' Product

Polycarbonate glazing may be recycled at the end of its long life span.
