

TWINFIX®

Data Sheet

Meridian Lean-To Canopy

A Lean-to Mono-Pitch Canopy with an aluminium wall plate, eaves beam, posts and Multi-Link-Panel Non-Fragile roof glazing system glazed with multiwall or solid polycarbonate.

Sizes Available

Projection up to 3m.
Bay size up to 4m.

Roof Glazing

Twinfix safe rooflight non fragile Multi-Link panels, which achieve a Class B in the ACR[M]001:2019 test (as described in the HSE document HSG33).

Use of these panels will help prevent accidental falls through the glazing if access is gained to the roof.

Framework

Polyester powder coated aluminium structure all coated to a standard Twinfix RAL colour in a standard finish — (see colour availability chart).

Rapid Installation

Due to the weight and durability of this product, moving and installation time of the glazing can be reduced significantly compared to glass.

'Green' Product

Polycarbonate glazing may be recycled at the end of its long life span.

Rainwater Goods

Standard square flow PVC rainwater goods supplied in black or white, fixed to canopy to discharge onto ground or existing surface drains.

Colour Availability

Please note, the colours below are only for illustration and may not accurately represent the actual colour. Additional colours are available but may increase cost and lead times.

Durability

Our polycarbonate combines high light transmission, good load bearing properties, and excellent weather resistance. The sheet is lightweight and impact resistant.

It features a co-extruded UV-protective layer on both sides of the sheet, which provides resistance against degradation caused by UV radiation in sunlight and almost no UV radiation passes through the sheet.

Our framework is polyester powder coated aluminium which is rust resistant, won't require future repainting and requires minimal maintenance.

Guarantee

10-year warranty on materials and on all canopy installations fitted by one of our own teams.

Options

- 7.5mm laminated glass instead of polycarbonate Aluminium rainwater goods.
- Timber posts
- Available in 6mm solid Polycarbonate or 16mm Multiwall.

Extras

- Post Protectors Signage
- Gates & mesh
- Windows, doors and glazed side panels
Roller shutters
- Vents
